The fair science and technology is a school event which always takes place on saturday after cultural week.

In this fair, students can demonstrate their knowledge in electronics through the projects they carry out, also in science.

This is presented to all family members who visit the school this day.

ON OCTOBER WE WILL MAKE DIFFERENT PERFORMANCES LIKE DANCES, PHONOMIMICS AND MUSICAL ACTS .

In the second week of october,we celebrate the most awaited week by our students with their ANDES Sprit, where they show their love for artst and dances.

For this cultural event the school is divide by courses to carry out different themes such as cities,representing our country and different ones.

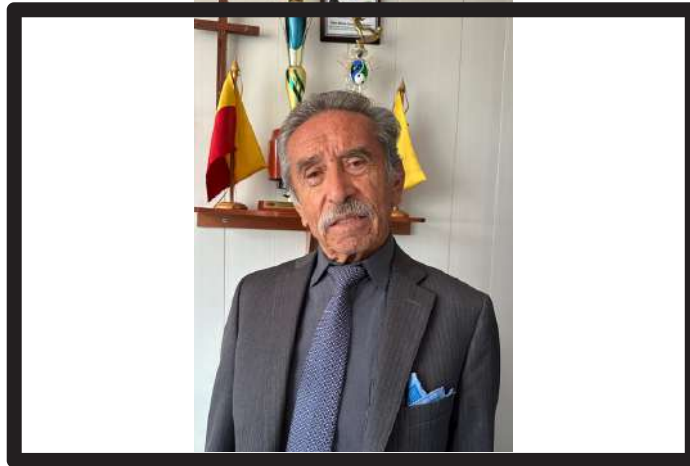

At the end of the presentations, within the school we end the culture week with the family day, they went to see their children's projects and ended up with family's participation on school's bingo.

Centro Educativo Los Andes is recognized for carrying out very ingenious science and robotics projects and they also perform both typical dances created by students.

LOS ANDES CEO , MR. PEDRO SANTIESTEBAN

In recent years we have been able to observe that parents pamper their children a lot, shower them with praise and buy them many toys even when they have not done anything good to deserve it, but they do not come together to correct them or give them correct training.

The consequences of these parental attitudes of not adequately training is that children are raising with narcissistic attitudes.

Children raised in this way reach adulthood without being prepared to know how to face the setbacks and difficulties that arise in life, and can easily become ill with anxiety and depression.

They expect everyone to treat them like kings, they are generally despots and look at others as inferior beings, they suffer from a superiority complex.

Being humble does not mean lowering self-esteem, it is difficult to see yourself surrounded by friends. For your children to be happy, you don't need to buy expensive clothes brands or expensive gadgets, don't sacrifice yourself completely for them, teach them to be grateful and considered with the home economy, to think about others, that is, about their neighbors, to respect the elderly, to be attentive to them, o provide some help to those in need, to be generous, because a person is happier giving than receiving.

Don't let your child be proud because he has better amenities than others.

Shaking hands and giving a friendly greeting to an elderly person is very gratifying for both of us, and spread it from our joy, is a great act of kindness and humility.

And parents, please hug your child and congratulate them for his good deeds and correct him with understanding when they make a mistake.

JUAN FORERO

“I found it very interesting since there were many universities in which we could see many of their study programs, it was also good to make sure of the career we want to study and also know their costs. SOFIA LEGUIZAMON

“Although That there was a great variety, I found my career in different universities and I found different options but I feel that I did not entirely like the experience, due to the disorganization and the fact that all the universities said the same thing and did not show me reasons”.

SIMÓN LOZANO

“I think it's great because of the careers that can be studied and because it focuses on the social field, a better area and better academic stations. For people who want to study these careers, the opinion I have about the university is that this programs are very useful.

INTERVIEW WITH THE PERSONERO AND THE STUDENT REPRESENTATIVE

The purpose of this interview is to inquire about the personero's work up to now. To achieve this, a series of questions have been prepared to determine if, based on what he has accomplished during his year as personero, he has met his expectations.

Of all the proposals you made during your campaign, how many have you made so far?

“So far I've done 2, the championships that are in "we'll see" and I'm trying to do the recycling thing But so far it hasn't been possible”.

Did they have the impact you expected?

“The one about volleyball has had a high impact, telling them that the boys are more enthusiastic about playing volleyball in breaks than doing other. The other I have not been able to develop it 100% because I have not received the help I need, for example, collect little caps in each classrooms, so I will plan it more with the coordinator and with the principal of school”.

What do you plan to do during the time you have left as the personero?

“Enjoy, hahaha, just kidding. Well, trying to make a positive impact here at the school after leaving it as a senior, considering it's my last year in school”.

How did you feel when you were chosen as the personero?

“Well, it was quite unexpected, to be honest. My responses and proposals were quite good, and at the moment of being elected, I didn't think so many people had voted for me”.

How have you felt up to now?

“I've been doing quite well. The teachers, academic coordinators, and administration have been very supportive and have welcomed me into what I wanted to do”.

IN YOUR EXPERIENCE AS THE PERSONERO, WOULD YOU DEFINE IT AS SOMETHING DIFFICULT OR A JOB THAT CAN BE TAKEN LIGHTLY?

“Well, of course, every position has its complexities, and taking it lightly wouldn't be responsible, especially since it's such an important role representing all the students”.

Vaca, M.

WHAT MOTIVATED YOU TO APPLY TO BE THE PERSONERO?

“Laura, hahaha, just kidding. I'm quite competitive, and I liked that position. I had always considered it since I was here in school, and things worked out quite well, so here I am”.

Vaca, M.

WHAT IS YOUR OPINION OF THE WORK THAT THE REPRESENTATIVE HAS DONE SO FAR?

“The student representative has been like my right-hand person, supporting me the most in the projects we've been able to undertake for the benefit of the students. Danna has been a great companion.”, Vaca, M.

DO YOU THINK YOU HAVE WHAT IT TAKES TO BE THE STUDENT REPRESENTATIVE? WHY?

“Yes, since I am a charismatic person, I listen to others and it is very important for me to take into account the opinions of others, so that everyone benefits”.

HOW HAVE YOU SUPPORTED THE STUDENTS THIS YEAR AS A REPRESENTATIVE?

“No situation has arisen where I can offer my support to any of the students”.

FOR YOU, WHAT HAS BEEN THE BEST PART OF BEING THE STUDENT REPRESENTATIVE?

“The best part is that I have been able to be closer to the decisions made within the institution”.

AS A REPRESENTATIVE, WHAT SKILLS HAVE YOU ACQUIRED THAT BENEFIT YOU IN YOUR PERSONAL LIFE?

“The power to lead others in a way that benefits everyone”.

HOW HAVE YOU SUPPORTED THE WORK OF THE PERSONERO?

“I have collaborated in the organization and management of all the events held by the school so far”.

WHAT DO YOU THINK OF THE WORK THAT THE PERSONERO HAS DONE SO FAR?

“Although he has done a good job , I believe he could put in a little more effort in the remaining part of the year”.
